College Kaleidoscope

Before embarking upon a college career many students have the impression that college life is much more narrow than it actually is. They plan on their college life being entirely social or academic or athletic.

We here at Western know that this is not true; but that college is a combination of many areas.

By using the College Kaleidoscope theme we attempt to illustrate the many aspects of college life.

Dedication

Miss Dorothy Gelhaus

Helpful! Courteous! Loyal! These words describe Miss Dorothy Gelhaus who devoted seventeen years to Western Montana College, its students, and teachers. Nine of these years she served in the capacity of Registrar, leaving this position to become head librarian, a position which she held for the past eight years.

Miss Gelhaus will long be remembered for her friendliness and helpfulness to students and her interest in providing excellent library facilities for our college.

In addition, Miss Gelhaus was always willing to aid the dramatics department in the costuming of plays.

To Miss Gelhaus, we, the CHINOOK Staff of 1967, respectfully dedicate this yearbook and offer her our good wishes for a long and happy retirement!

Fourteen Seniors were chosen to represent Western in the current edition of Who's Who in American Colleges and Universities. These students were chosen by the Scholarship and Awards Committee on the basis of scholarship, leadership, activities, citizenship, and the promise of future usefulness.

Chuck, a Dillon resident, received the Phi Delta Kappa Junior Man of the Year Award and two advanced Honor Scholarships. He is very conscientious in his studies and has maintained an excellent scholastic standing.

A transfer student from Eastern Montana College, Kathy has a double major in which she maintains a high grade point average. She has received an Advanced Honor Scholarship. She is a member of Student Wives and has been a member of the Wescolite staff.

Chris has received three Advanced Honor Scholarships. A Libby resident, she is proctor in the Women's Residence Hall and is a member of KZN, WRA, PEMM Club, and Women's House Council.

A talented artist, Jim has received the Barbara Hancock Award, the coveted Mary Baker Emerick Art Award, and for his endeavors outside of class his Art Club guard pin and a two-brush emblem. His illustrations of Lewis and Clark found a place in the Harlowton Times and his water colors earned him a position in the competition at the State Fair in Billings. He is a member of Art Club and Kappa Pi and has a double major.

A former student of the School of Mines, Ray is working as a licensed x-ray technician in Butte while he pursues his English and Social Studies majors. He has received the Cobb Foundation Scholarship and an Advanced Honor Scholarship as well as taking part in many intramural sports activities.

This busy Butte resident, who doubles in English and Social Science, is a transfer from the Montana School of Mines. Mick has lettered in baseball both here at Western and at Montana Tech. His latest endeavor has been a part in the play, "The Rainmaker."

One of the most active and versatile students attending Western, Carol came from Livingston to major in Elementary Education and English. Besides being Secretary of the Associated Students, Inter-Club Council, Senior Class, and Chanticleers, she has been affiliated with KZN, Westernettes, Matrix, and Women's House Council. She has been a dorm proctor, a delegate to the Montana Student Presidents' Association in Billings, and has also earned a letter for outstanding service to the Wescolite staff.

Cost to educate:

$5,885!

The cost of educating one Montana child has more than doubled in the last 15 years. Today it costs $5,885 to send one child from the first grade through public high school.

Where does the money come from? From taxes—both individual and business taxes.

Of the $4,949,189 in property taxes paid by the Montana Power Company in 1964, about $3,000,000 went directly into education.

That's enough money to educate 6,300 children for a full school year. Or it would build 115 classrooms ($25,000 per classroom), or buy 750,000 textbooks or pay the salaries of 580 teachers for a full year.

None of our tax money is more wisely invested. For it helps to stimulate and enlighten the minds of our young people.

In your hands rests the future of our state.

SERVING YOU IS OUR BUSINESS

IT'S THE PEOPLE

From a single mine in Butte, Montana, The Anaconda Company has grown into the world's largest non-ferrous mining and metal fabricating concern.

Over the years, Anaconda steadily expanded its operations throughout the Western Hemisphere and built its market from copper alone to a myriad of metals and fabricated products.

People were responsible for every step forward.

Today there are more than 40,000 Anaconda employees—geologists, miners, metallurgists, chemists, accountants, engineers, lawyers, salesmen, manufacturing specialists. They are members of a dynamic industry, performing an important job.

The future will rest in the hands of the same kind of good, capable people. Not only our industry, but every component that makes America great, looks to our schools and colleges for technically qualified people of talent and skill. They will share in the challenges and opportunities that lie ahead.

In America, under our Free Enterprise system, the choice of a career is YOURS to make. Whatever you choose, may success be yours.
